Spiralling out of poverty & salinity

Use of resources under NREGA to address the issues of poverty in salinity affected coastal regions of Bharuch district:

1.0 Background:

VIKAS has long term involvement (three decades) in facilitating freedom of bonded agriculture labours (20,000 families) living in coastal villages of Bharuch district.

Macro-economic changes combined with intensive educational empowerment followed by strong focus on accessing means of production (wastelands, village ponds, surplus agriculture land) and wealth generation activities by providing technological/credit inputs (SAVE & Lok Vikas Nidhi) have resulted in freeing of about 12,000 families over a period of last 10 years. However there are still about 8,000 bonded families having collective debt of Rs. 5.6 Crore waiting to be free from this inhuman cycle of borrowing and bondage.

VIKAS sees combined use of NREGA & RIT as an opportunity to address this unfinished task.

In order to realise this objective VIKAS with the support from Coastal Salinity Prevention Cell (CSPC) (October 2009) & SAVE the Children (June 2009) initiated a pilot project.

2.0 Work carried out:

Under the programme the focus has been on facilitating access of poor to resources under NREGA as legitimate entitlements leading to development of productive assets aimed at reducing their vulnerability.

This is being achieved by

- Creating local institutional mechanism,
- Providing technical services in preparing and implementing village specific plans
- Facilitating joint use of provisions of NREGA & RTI Act by poor to get entitlements & dues

For this VIKAS created

- Technical resource group at regional level covering 120 villages
- Four Community organisers each covering 30 villages
- 40 Development activists each covering three villages

2.1 The activities carried out under the Programme:

Following is a set of activities carried out over the programme period.

May 2009

During this month meetings were organised with District Development Officer, Bharuch District to solicit the mandate and support to initiate the programme. As a result of this, DDO requested VIKAS, as pilot effort, to identify set of villages were

people would be interest in taking advantage of the scheme. The general impression in the Government administration was that though Government wants to initiate the activities local people do not come for the work.

Based on our suggestions DDO instructed Taluka Development Office, Jambusar to initiate work in nine villages. VIKAS organised meetings with representatives of Janshakti Parishad & leaders from the selected nine villages to ascertain the need of local people.

After much effort work in eight out of nine villages was carried out.

Due to intensive mobilisation of local people and involvement of team of VIKAS people participated in the programme in large numbers. (Exceeding the expectations of district development administration) Efforts were also made to ensure timely and full payment to workers.

The village-wise generation of person days:

Total		7,531	7,256	14,787

June 2009

In the second phase, meetings were organised with the representatives of Parishads of Jambusar, Amod and Vagra taluka to share the experience of Jambusar taluka and also plan out similar activities for all the three talukas at a larger scale.

One of the major issues was soliciting demand for work from local people. It was observed that local people were sometimes not enthusiastic about participation mainly because of delayed and incomplete payment against the work.

VIKAS ensured them of intensive follow up with the Government and requested members of Parishad to carry out major campaign to solicit demand for work. A survey form was canvassed in all the 120 villages and as a result demand for work was collected from 44 villages from three talukas. The details are as under:

Summary of demand for work received					
Sr.	Taluka	Total Villages	Women	Men	Total Workers
1	Jambusar	22	1044	1125	2169
2	Amod	5	129	134	263
3	Vagra	17	678	701	1379
	Total	44	1851	1960	3811

After receiving applications from 44 villages detailed planning exercise for 16 villages was carried out. This included wasteland development and mangrove plantation as well as development of individual land of BPL families belonging to Schedule Tribe. On 24th June 2009 the District Planning Board approved the proposal amounting to Rs. 108.29 lac.

August 2009

During this month, due to insufficient rains in Gujarat, Government of Gujarat started an intensive programme to build *Bori Bandh* in a campaign mode throughout the state. VIKAS organised major meetings with representative of Parishads & Gujarat Land Development Corporation.

September 2009

This month was marked with unearthing of a major fraud in implementation and payment of wages, committed by village Sarpanch, Talati, and Postmaster of Ora village. Money in the name of local labourers who were Chakars (Bonded Labourers) was wrongfully taken away by the officials. The complaint under RTI was by cadres of Parishad against the erring officials and finally they were put behind the bars by DDO, Bharuch district.

Note: From post office A/c of two tribal labourers, amount of Rs.7,956/- was wrongly taken out by officials. Police case was filed by the local people. Village Sarpanch, Talati and Post Master were kept in jail for three days.

October 2009

During this month survey was carried out to assess the development potential of land received by BPL tribal families from Government. This was followed by preparing planning and facilitation of allocation of funds through Gujarat Land Development Corporation to develop these plots of land. Total fund allocated for the activity to be carried out on land belonging to 182 families is to the tune of Rs. 52.00 lac.

The work carried out during this month under NREGA.

Way forward:

The support from District Development officers (DDO), sound community mobilization & organisation (Taluka level Parishads of ALs) combined with technical support from the team has helped in creating a vibrant institutional mechanism which ensures effective implementation of programme objectives. This needs to be nurtured and strengthen for a long term institutional sustainability of the process.

Following specific Programme activities proposed to be taken up:

1. **Ceiling Land**
Development of **651 acres** land given to **218** schedule tribe (ST), Below Poverty Line (BPL), agriculture laboureres families by the Government
2. **Development of Wasteland**
1140 acre saline wasteland given to **400** schedule tribe (ST), Below Poverty Line (BPL), agriculture laboureres families by the Government
3. **Mangrove regeneration**
100 ha. of mangrove plantation in 20 coastal villages of the region

All the three above mentioned activities would be developed with leveraging resources under NREGA. For this District Development Officer has shown positive interest.

The financial requirement for the above three activities have been estimated as under.

Sr. No.	Particulars	Land Area	No of Families	Estimated amount (Rs.) lac	NREGA Rs. In Lac	People's Contribution	External Contribution

Case Study NREGA

VIKAS Center for Development- Jambusar had initiated a “*Jan Jagruti Abhiyaan*” in villages of Jambusar and Vagra Talukas with a view to bring awareness among people about the ***National Rural Employment Guarantee Act [NREGA]*** and through that they get 100 days guaranteed employment. Because of this awareness campaign a leader of VIKAS & Lok VIKAS Parishad of Vagra district of Ora village *Ramubhai Vasava brought a case of injustice to light and with their efforts they got Justice.*

He brought to light a case of injustice, done with two people named *Mafat Chagan Vasava and Shana Narsigh Vasava of Ora village of Vagra Taluka* and set an example for others

Sarpanch, Talati & Post master wrongfully took the money on the name of laboureres who had actually not worked on the programme. The names and signature were forged.

To bring this issue *Ramubhai Vasava*, a member of Lok Vikas Parishad, Vagra as well as of Child labour Eradication started a mission, in which;

- Members of the Vastikhandali and other villages surrounding Ora joined the meeting to show their support
- Initially they raised this issue with Talati who did not repond well.
- Following this *Ramubhai & Shanabhai* sent an application to Collector, DDO & DRDA Bharuch District. But here also they didn't get an appropriate response.
- After this they asked for information under the ***Right To Information Act*** & there they got all the information related to this issue. This very conclusively proved that Sarpanch, Talati & Post Master had defrauded and taken away money wrongfully.
- *Based on this, DDO* filed a case against these people & registered the F.I.R.
- Ramubhai was offered Rs.50, 000/- as a bribe by the accused.
- But, Ramubhai didn't accept the bribe and continued fighting against this injustice.
- At the end three of them were pronounced guilty and by the order of the Collector were put behind the bars.
-

Details of the punishment:

- The Sarpanch, Talati, Panchyat Peon and Postmaster were sent to the Jail for three days.

Detail of the financial scandal done by the Sarpanch, Talati & Post Master:
